

Project 1. Sales, Customer & Product Performance Analysis Dashboard

Key Business Insights

Insight 1: Strong Overall Business Performance with Healthy Profitability

Observation:

The business generated **\$24.91M revenue** with **\$10.46M profit**, indicating a strong profit margin.

Business Impact:

The company is operating profitably and has a solid financial foundation for growth.

Action / Recommendation:

Maintain current pricing and cost-control strategies while exploring expansion opportunities.

Insight 2: Revenue and Profit Show Consistent Growth After Mid-2021

Observation:

Revenue and profit trends show a clear upward movement from **mid-2021 to 2022**, with monthly revenue reaching around **\$1.8M**.

Business Impact:

The business recovered well after early fluctuations and entered a strong growth phase.

Action / Recommendation:

Identify and replicate strategies (marketing, product focus, regions) that contributed to post-2021 growth.

Insight 3: Accessories Drive the Highest Order Volume

Observation:

Among all categories, **Accessories generate the highest number of orders**, followed by Bikes and Clothing.

Business Impact:

Accessories play a key role in driving order volume and customer engagement.

Action / Recommendation:

Increase cross-selling of accessories with bikes and clothing to further boost revenue.

Insight 4: Revenue Is Highly Concentrated in a Few Products**Observation:**

A small group of products (mainly **Mountain and Road bikes**) contributes a large portion of total revenue.

Business Impact:

High dependency on a limited set of products increases business risk if demand drops.

Action / Recommendation:

Diversify the product portfolio and promote mid-range products to reduce dependency.

Insight 5: Low Return Rate Indicates High Product Quality**Observation:**

The overall **return rate is only 2.17%**, which is relatively low for retail products.

Business Impact:

Customers are generally satisfied with product quality, reducing loss due to returns.

Action / Recommendation:

Maintain quality standards and analyze top-returned products to further reduce returns.

Insight 6: Customer Base Is Balanced but Revenue Is Concentrated**Observation:**

While the customer base is large (**17,416 customers**), top customers contribute disproportionately higher revenue.

Business Impact:

Revenue concentration among top customers creates dependency risk.

Action / Recommendation:

Implement loyalty programs and targeted campaigns to increase repeat purchases from mid-tier customers.
